

UNCG Research Participant Recruitment Database

Please complete this form and submit to the IRB via an initial Cayuse IRB study application or a Cayuse study modification. This form will need to be uploaded under "recruitment documents and indicate in "recruitment procedures" that you will advertise your study on the UNCG Research Participant Recruitment Database.

Once your Cayuse submission that includes use of the UNCG Research Participant Database is approved by the IRB you will receive an approval letter that indicates approval for use of the recruitment database. You will then use this link to the live Microsoft Form, to add the approved information below to the online study database.

Please note: It is the PI responsibility to add the approved information below into the Microsoft Form linked above so that it is published to the online database. The IRB will not post this information online, we are only approving the information that will be posted.

The information submitted in this database is periodically audited for accuracy and compliance with the approved IRB.

New submissions to the Research Participant Recruitment Database can take up to 1 week to review and post online.

1. Study Protocol Title *
